Office Action Summary

Art Unit: 1714

DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8 and 31, drawn to a block copolymer and an aqueous solution thereof, classified in class 524, subclass 505+.
- II. Claims 9-30, drawn to a bioactive agent delivery system and a method using thereof, classified in class 424, subclass 130.1+.

1. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product, block copolymer, can be used in making implants.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. May and Ms. Caldwell on April 24 and 28 2003,

and it was determined that the applicant has elected to restrict to the above restriction.

APPROPRIATE ACTION REQUIRED: The applicant must file a restriction amendment within the time period set forth in the restriction requirement.

Art Unit: 1714

reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
